BISTROTABLO

bistrotablo

A table for two... the ultimate cliché.
Cozy together... yet another cliché.
Simply enjoy a strong, beautiful table by cassecroute.
Eat, drink, read, play chess, rest, dance... enjoy!

A table for two...

In a long row in public parks or on your terrace, **BISTROTABLO** stands strong and confident.

The tabletop is large enough to seat 4 people if you add 2 extra chairs or stools.

Available in all colors, finished with a textured powder coating.

Suitable for both indoor and outdoor use.

100% metal, your grandchildren will still be enjoying it for years to come.

100% recyclable.

ABOUT

Cassecroute was founded in 2009 by Ronald Mattelé, who immediately positioned himself as a pioneer by selling directly to the end customer. Mattelé's first design, the *cassecroute picnic table*, was an instant hit. The table is available in all possible RAL colors and sizes, and in aluminum, it can even reach a length of 14 meters.

In 2011, cassecroute expanded its collection to include the BEER TABLE, CARRÉ, LA GRANDE RONDE, the BENCH, and the FIELD KITCHEN.

In 2016, cassecroute launched the *Picnic in the Shadow* at the Interieur Kortrijk fair, designed by Ivo Caruso and Alessandro D'Angeli. However, the original picnic table remains the undisputed bestseller. A design that has now been sold worldwide.

In 2018, Mattelé completed the picnic range with a concrete version. To highlight the anniversary and success of the picnic table, cassecroute launched the LIGNO TABLO in 2020, a luxury version made of solid wood. A picnic table for those seeking added value.

In 2025, cassecroute will complete the collection with the BISTRO TABLO, a bistro table in all colors, suitable for both indoor and outdoor use, for both private and project applications.
